

	
Personal information	
Surname/Name	OPRICĂ LĂCRĂMIOARA ANCA
Adress	Tudor Vladimirescu no. 4, bl. C7, et. III, ap. 12 , Iași
Phone	0040232201502
Fax	0040232201472
E-mail	lacramioara.oprica@uaic.ro , iasilacra@yahoo.com
Citizenship	Romanian
Date of birth	31.05.1968
Desired employment/ Occupational field	Alexandru Ioan Cuza University, Faculty of Biology, Departement of Biology
Thesis title, year and institution support	“Research on metabolic processes in some cellulolytic species under different growth condition”, 2005, Faculty of Biology, Alexandru Ioan Cuza University
Professional experience	
Period	<ol style="list-style-type: none"> 1. 2007-present 2. 2004 – 2007 3. 2002 – 2004 4. 1997 – 2002 5. 1995 – 1997 6. 1994 – 1995
Occupation or held position	<ol style="list-style-type: none"> 1. Lecturer 2. Assistant 3. Senior researcher at Microbiology Laboratory 4. Researcher at Microbiology Laboratory 5. Researcher assistant at Microbiology Laboratory; 6. Stagiar researcher at Microbiology Laboratory.
Main activities and responsibilities	<ol style="list-style-type: none"> 1. Scientific research and educational activities 2. Scientific research and educational activities 3. Research 4. Research 5. Research 6. Research

Name and address of the employer's	<ol style="list-style-type: none"> 1. Alexandru Ioan Cuza University, Iași 2. Alexandru Ioan Cuza University, Iași 3. Biological Research Institute, Iași 4. Biological Research Institute, Iași 5. Biological Research Institute, Iași 6. Biological Research Institute, Iași
Education and training	
Period	<ol style="list-style-type: none"> 1. 1998 - 2005 2. 1993 - 1994 3. 1989 - 1993 4. 1982 - 1986
Qualification/Diploma obtained	<ol style="list-style-type: none"> 1. PhD in Biology, Biochemistry specialty/Alexandru Ioan Cuza University, Faculty of Biology 2. Specialization in Applied Biology (Master Equivalent) 3. Degree in Biology/ " Alexandru Ioan Cuza University, Faculty of Biology 4. Baccalaureate/high school general education "George Bacovia", Bacau
Principal subjects/Occupational skills covered	<ol style="list-style-type: none"> 1. Biochemistry, Applied Enzymology, Biotechnology, Food Biochemistry/Working with depth notions and concepts, principles and methodologies specific to working Biochemistry. 2. Specific areas of Biology education cycle 3. Specific areas of Biology education cycle 4. Specific areas of high school education cycle
Teaching	<p>Teaches</p> <ol style="list-style-type: none"> 1. General Biochemistry 2. Biochemistry of secondary metabolites 3. Molecular mechanisms of fermentation processes (Master) 4. Food biochemistry (Master) 5. Biochemistry of microorganism metabolites (Master) 6. Metabolic transformations in agricultural and food raw materials (Master) <p>University courses or textbooks and printed books</p> <ul style="list-style-type: none"> • <u>Lăcrămioara Oprică</u>, 2011 – Food Biochemistry, Tehnopress Publishing House, Iasi. • Cojocaru Dumitru, Olteanu Zenovia, Ciornea Elena, <u>Oprică Lăcrămioara</u>, Cojocaru Sabina- 2007, <i>General Enzymology</i> TEHNOPRESS Publishing House, Iași. • Alexandru Manoliu, Manuela Elisabeta Sidoroff, <u>Lăcrămioara Oprică</u>, Sorin Diaconeasa, Tatiana Tofan-Burac, 2007 - Biotechnology Dictionary - Roumain, English, Russian, French, Finnish, Tehnic Publishing House, Bucuresti. • Alexandru Manoliu, <u>Lăcrămioara Oprică</u>, Sorin Diaconeasa, Tatiana Tofan-Burac, Eugen Cărdei, Costică Savin, 2002 - Poliglot Biotechnology Dictionary - roman, englez, rus, francez, Corson Publishing House.
Scientific research	<p>► Areas of competence: Biochemistry, Biotechnology, Applied Microbiology, Biotechnology</p> <p>Member of scientific societies and professional committees:</p> <p>Member of the Romanian Society of Biochemistry and Molecular Biology; Member of the Society for Life Sciences 'Probios';</p> <p>► The main results of the research (during 1996-2013) were concretiyed in a number of 98 papers published in national and international journals (9 articles ISI).</p>

Scientific research	<p>RESEARCH ON CONTRACT/GRANT</p> <p>- Contributor at some contracts during 1995-2011 period</p> <ol style="list-style-type: none"> 1. 2008-2011, Program PN II: Complex characterization of cytostatic active extracts of <i>Claviceps purpurea</i> strains obtained by parasexual hybridization biotechnology, to capitalize on veterinary therapeutics. 2. 2008-2011, Program PN II: Improving the genetic potential and complex characterization of plant biotypes group future impact on ecological and sustainable development in horticulture. 3. 2007-2009, Program CEEEX: Soil and water resources management in agroecosystems affected by excessive drought to maintain biodiversity. 4. 2007-2008, Grant GAR: Philosphere complex study of plant species grown in the Botanical Garden of Iasi - premise for the foundation of new opportunities in the care and protection of anthropogenic ecosystems. 5. 2006-2008, Grant CNCIS: Polluted soils micoremediation from areas considered environmentally critical. 6. 2006-2008, CEEX (BIOTECH), Getting submerged strains of <i>Claviceps purpurea</i> with high and preferential glucanolytic capacity and establish areas of biomedical recovery of native glucan preparations. 7. 2006-2008, CEEX (BIOTECH), biotechnological recovery of production potential in <i>Hypophae rhamnoides</i> ssp.<i>carpathica</i> by the complex characterization of varieties, source of organic crops for sustainable agriculture. 8. 2005-2007, CEEX (MENER): The use of some morphological, structural, ultrastructural and biochemical biomarkers in assessment of human impact on biodiversity Ceahlau National Park and adjacent area. 9. 2005-2007, CEEX (AGRAL): Characterization of bioactive principles of plant and fungal origin with cytostatic, immunomodulatory, metabolic and neurotropic action and its application in functional food. 10. 2004-2006, BIOTECH: The use of natural electromagnetic non-ionizing radiation (infrared radiation in combination with ultraviolet radiation) in modulating metabolism cellulolytic species <i>Alternaria alternata</i> to optimize growth conditions biosynthesis of cellulases in the forest industry waste. 11. 2003-2005, BIOTECH: Optimization of biosynthetic efficiency of some strains of <i>Claviceps purpurea</i> by somatic hybridization biotechnology and establish new areas of biomedical and biopesticides use of ergoline alkaloids. 12. 2003-2005, BIOTECH: Optimizing biodegradation of forest industry waste by cellulolytic microorganisms using physical push factors (magnetic and electromagnetic fields). 13. 2002-2004, RELANSIN: Technology modernization of combat diseases and pests at pear tree by studying the effectiveness of pesticides in relation with their influence on physiological and biochemical processes in plants and on some soil biochemical parameters in order to obtain high quality products 14. 2001-2002, RELANSIN: Research on the role of some pesticides in combating major diseases in different varieties of apple and cherry study correlated with histological and physiological changes in plants and the accumulation of these substances in fruits. 15. 2000-2002, ORIZONT 2000: Study of fundamental metabolic parameters at <i>Chaetomium globosum</i> and <i>Alternaria alternata</i> species in cultivation conditions on media containing wastes from forestry (sawdust from paper industry). 16. 2000-2002, Grant, Dynamic of enzyme systems, proteins, and nucleic acids biosynthesis in cellulolytic <i>Chaetomium globosum</i> species under the influence of physical factors (magnetic liquid, low intensity microwave). 17. 1999-2001, Fungal biodiversity study - Genres Mycosphaerella Johanson in Romania 18. 1999-2001, Research on interaction microorganism - host plant in some forms of parasitism and symbiosis. 19. 1998-1999, Grant, Research on fungal biodiversity. 20. 1996-1999, ORIZONT 2000: Research on optimization of propagating material production technology in application for obtaining sclerotia of <i>Claviceps purpurea</i>" 21. 1995-1999, ORIZONT 2000: Studies on amyloytic and lignocellulosolytic microorganisms in view to get of some microbial strains producing biologically active substances. 22. 1995-1998, Research on the cellular differentiation in some species of fungi producing active ingredients and specific markers
----------------------------	---

SELECTED PAPERS LIST

► ARTICLES ISI

- Elena Truta, Gabriela Vochita, Craita Maria Rosu, Maria Magdalena Zamfirache, Zenovia Olteanu, Lăcrămioara Oprica, 2013, Karyotype traits in Romanian selections of edible blue honeysuckle, Turkish Journal of Biology, 37(1): 60-68.
- Rosu Craita Maria, Manzu Ciprian, Olteanu Zenovia, Lăcrămioara Oprică, Oprea Adrian, Ciornea Elena, Zamfirache Maria Magdalena, 2011, Several Fruit Characteristics of Rosa sp Genotypes from the Northeastern Region of Romania, Notulae Botanicae, Horti Agrobotanici Cluj-Napoca, 39 (2), p. 203-208.
- Stefan M., Dunca S., Olteanu, Z., Oprica L., Ungureanu, E., Hritcu, L., Mihasan M., Cojocaru D., 2010, Soybean (*Glycine Max* [L] Merr.) Inoculation With *Bacillus Pumilus* Rs3 Promotes Plant Growth And Increases Seed Protein Yield: Relevance For Environmentally-Friendly, Agricultural Applications, Carpathian Journal Of Earth And Environmental Sciences, 5 (1), pp. 131-138.
